Bensville NSW 2251

Email: jacob.temperley@students.mq.edu.au

Dear Jacob,

Re: MATH1007 – Discrete Mathematics I (Session 2, 2020)

I write to congratulate you on achieving your excellent grade of High Distinction in MATH1007. Such a result is evidence that you have understood and mastered the basic concepts and techniques of discrete mathematics.

Your result leaves you well placed to continue further study in Mathematics and if you are not already planning it, I would encourage you to consider enrolling in other mathematics units this year, [such as MATH2907 Discrete Mathematics II and/or one of the calculus-based units](#). If you would like some advice on subject or course/degree choice, please contact the department via email at fse.mathstats-enquiries@mq.edu.au and we will be happy to set up a time to discuss this with you.

Please feel free to come and talk to me or any of my colleagues in the Department of Mathematics and Statistics. If you would like some advice on subject choice, please contact the department via email at fse.mathstats-enquiries@mq.edu.au and we will be happy to set up a time to discuss this with you.

In the meantime, I wish you a happy and successful university career.

Yours Sincerely,

A handwritten signature in black ink that reads "S. Muller".

Professor Samuel Muller

Head
